ARIEL CHAMA

Software developer

ABOUT ME

Software developer with expertise in React, Next.js, React Native, PHP, and Laravel, as well as solid knowledge in MySQL. Experience in agile methodologies with SCRUM and currently improving networking skills with CCNAv7 certification. I seek to integrate development and network engineering to create robust technological solutions.

PROFESSIONAL EXPERIENCE

ATHSec - Frontend developer 2021 - 2022

I participated in the front end development of the first version of the official website. And I participated in other company projects.

Freelancer - Fullstack developer 2023 - 2024

I designed the layout and I developed the official website for an Angolan personal security company.

I worked as a freelancer at the technology startup Vielfy, I developed the frontend of a website for a bookstore.

I developed a web school management system for the Instituto Técnico de Hotelaria e Turismo Laura Vicuña, a project that served for my TCC in high school.

EDUCATION

Technician of computer 2020 - 2024

Instituto Politécnico Industrial de Benguela
